

Prof. Markas Petuchauskas

The author is one of the most famous art scholars, cultural activists and program managers closely related to theater. Excellent and demanded speaker. Markas' biography is an absolutely extraordinary one since he is one of the few Vilnius Ghetto survivors who since those tragic and painful days has been already submerged in the miracle of theater and art. Who else can claim seeing absolutely all of 111 Vilnius Ghetto Theater performances? It is him - Markas Petuchauskas. And who else can be happy to have met so many legendary artists and figures since those times up to the present day? Him again. And it is all the book is about. It is a unique witness of unique history and resistance creative spirit to the most cruel and outrageous onslaughts on human existence and dignity.
